SUPPLEMENT TO REPLY COMMENTS

Mediacom Communications Corporation (“Mediacom”), by its attorneys, hereby supplements its Reply Comments submitted on January 24, 2013 in response to the Wireline Competition Bureau’s December 5, 2012 and December 10, 2012 Public Notices seeking comment on areas listed as “unserved” by the National Broadband Map for purposes of the Connect America Fund’s Phase I (“CAF I”) incremental support. In its Reply Comments, Mediacom indicated that it required additional time to review the 4000+ page submission by CenturyLink claiming that almost 195,000 Census blocks with over 3.3 million homes are incorrectly listed as served area. Mediacom’s review is now complete.¹

Mediacom’s review indicates that 1759 of the 195,000 Census blocks submitted by CenturyLink should continue to be listed as fully “served.” In each of these 1759 census blocks, Mediacom advertises and provides service to at least one customer with a fixed terrestrial internet access service operating speeds in excess of the 3 Mbps downstream and 768 kbps upstream minimum standard. Indeed, in many instances, Mediacom is able to provide such services to dozens and sometimes hundreds of residents in such areas.

¹ Mediacom will be relaying the data collected through its analysis to the appropriate state mapping agencies.

The contested Census blocks can be divided into three categories. Exhibit A lists 719 Census blocks which CenturyLink claims it exclusively serves, but in fact are areas where Mediacom's broadband service is also available. Exhibit B lists 19 Census blocks that CenturyLink claims are not served by any provider whatsoever, but in fact are also areas where Mediacom's broadband service is available. Finally, Exhibit C lists 1021 Census blocks that CenturyLink claims are only minimally or partially served by itself and another provider, but again are areas where Mediacom's broadband service is available. Indeed, in 429 of the Census blocks listed in Exhibit C, Mediacom is able to provide a broadband service in excess of the 3 Mbps downstream and 768 kbps upstream to dozens and often hundreds of residents.

As broadband services exceeding 3 Mbps downstream and 768 kbps upstream are widely available in the above referenced 1759 Census blocks, the Bureau should retain the "served" designation for each such areas, thereby avoiding unnecessary subsidization and overbuilding of such areas. As the information contained in this Supplement serves to ensure that public resources are not improperly used to subsidize areas that are ineligible for subsidization, thereby serving an important public purpose, Mediacom respectfully requests that the Bureau grant Mediacom all necessary and appropriate relief to accept this submission into the record.

Respectfully submitted,

**MEDIACOM COMMUNICATION
CORPORATION**

DECLARATION

I, Thomas J. Larsen, under the penalty of perjury, do hereby declare:

1. I am Group Vice President, Legal and Public Affairs for Mediacom Communications Corporation;
2. I have overseen an internal review of Census Blocks submitted by CenturyLink that it claims are not fully "served" by broadband wireless service providers. CenturyLink's list was submitted on January 9, 2013 in response to the Wireline Competition Bureau's December 5, 2012 and December 10, 2012 Public Notices;
3. Mediacom's technical staff have cross-referenced CenturyLink's list with the universe of Mediacom's broadband Internet access customer records, and have identified 1759 census blocks included on the CenturyLink's list where Mediacom currently advertises and provides broadband Internet access service to customers in excess of 3 Mbps downstream and 768 kbps upstream. The lists attached as Exhibits A, B and C to Mediacom's Supplement to Reply Comments in WC Docket 10-90 accurately reflects such census blocks.
